

BMW S1000RR '20 Belly Cover Fitting Diagram

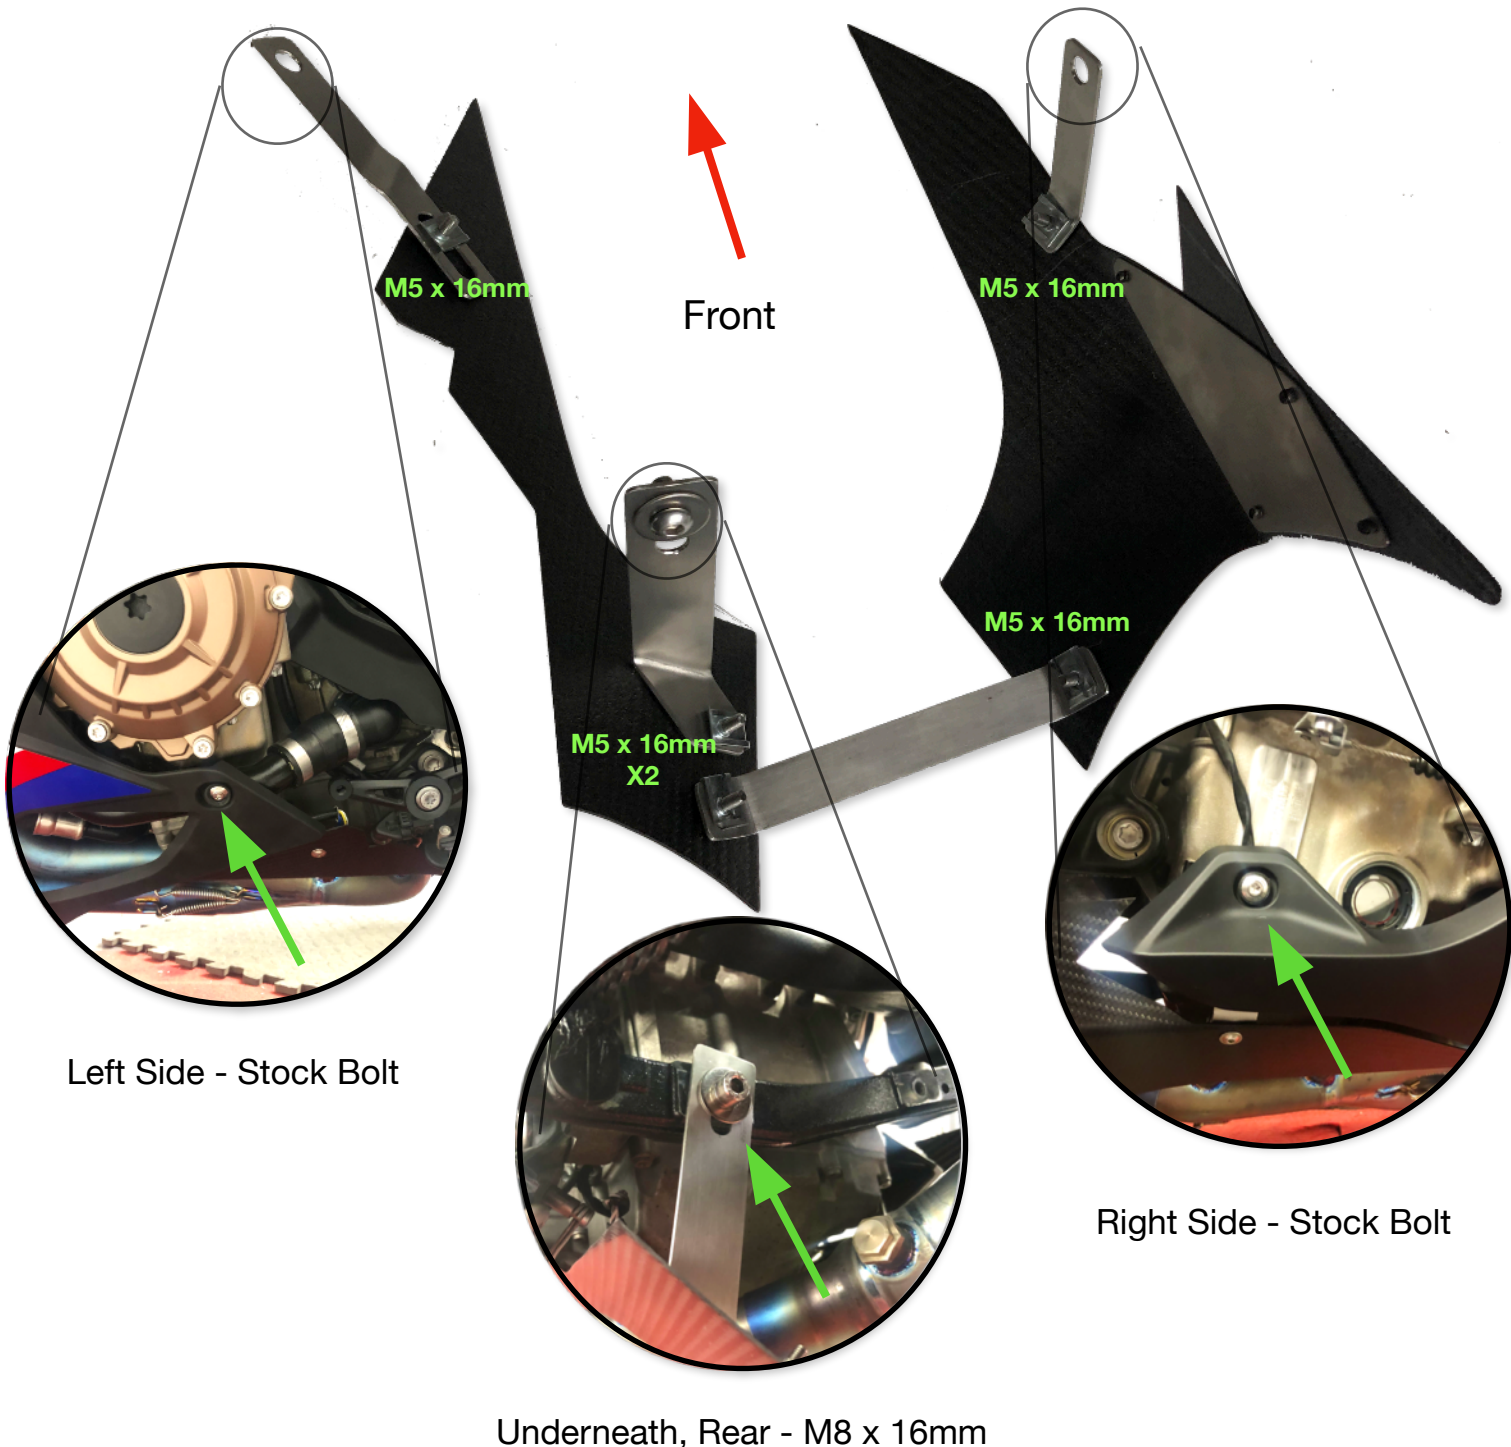

Austin Racing parts used for fitting:

- 1x Right Hand Side Carbon Cover
- 1x Left Hand Side Carbon Cover
- 4x Stainless Steel Brackets
- 5x M5 Panel Clips
- 5x M5 x 16mm Bolts
- 1x M8 x 16mm with washers

OEM BMW removed parts, re-used for fitting:

- 2x BMW Stock Bolts

All brackets are made to be adjustable so that they may fit our range of different exhausts available for this motorcycle. Please note all panels should have an air gap between the stock bodywork and exhaust. Make sure to use appropriate thread locking compound on all fasteners to avoid them coming loose with vibration.
